SKILLS

Frontend

- React, Next.js
- TypeScript, JavaScript
- HTML5, CSS3
- Redux, Recoil
- GraphQL, MUI, Bootstrap

Backend

- Node.js, Express.js
- Prisma ORM
- REST APIs, GraphQL

Databases

- MySQL, PostgreSQL
- MongoDB, Firebase

Testing

- Cypress
- Unit & Integration Testing

DevOps / Tools

- Git, GitHub, Docker
- Postman, Hasura, NVM

Languages

- TypeScript, JavaScript
- Java, C/C++

EDUCATION

University of the Visayas

BS Computer Engineering
Feb 2015 – Jul 2020

CERTIFICATIONS

- [React Developer — Udemy](#)
- [Node.js — Udemy](#)
- [Angular — Udemy](#)
- NC II: CSS — TESDA

PROFESSIONAL SUMMARY

React Developer with 4+ years building scalable, high-performance web applications using React, TypeScript, and Next.js. Skilled in state management (Redux, Recoil), API integration, and frontend testing. Experienced in Agile teams, code reviews, and full-cycle frontend development.

PROFESSIONAL EXPERIENCE

Accenture

Sep 2024 – Present

Software Engineer

Stack: React, TypeScript, Redux, MUI, Node.js, Git

- Built reusable React components with TypeScript and hooks, reducing duplication and improving code consistency.
- Enhanced rendering performance using React.memo, useMemo, and useCallback, delivering faster page loads.
- Improved API reliability by standardizing data-fetching patterns and handling edge cases across multiple features.
- Resolved production bugs promptly and participated in Agile ceremonies and peer code reviews.

AJIO IT Solutions

Aug 2022 – Aug 2024

ReactJS Developer

Stack: Next.js, React, TypeScript, GraphQL, Recoil, Prisma, MUI, SQL

- Expanded scalable frontend features using React hooks and Recoil; leveraged Next.js SSR/SSG for better SEO and performance.
- Implemented GraphQL queries and mutations, reducing over-fetching and improving response times.
- Created reusable MUI component libraries adopted across multiple modules for a consistent, accessible UI.
- Applied Git-based workflows — feature branching, pull requests, and structured code reviews — to maintain a stable codebase.

Mindweb eSolutions

Oct 2020 – Jan 2022

Software Engineer

Stack: PHP, JavaScript, HTML, CSS, MySQL

- Improved and maintained institutional websites for University of the Visayas, VisayasMed Hospital, and DepEd Talisay.
- Implemented responsive UI updates and resolved technical issues to ensure reliable website performance.

Mindweb eSolutions

2019

Android Developer — Internship

Stack: Java, Firebase, Android Studio

- Enhanced Android apps using Java with MVC/MVVM patterns; integrated Firebase Realtime Database for live data sync.
